## Product description

The compact AP40 PRO combines clear design, quiet operation, and energy efficiency. The construction of the device ensures maximum air throughput and a optimized filtration. The 360° multi-layer filter filters fine dusts (PM10, PM2.5, PM0.3, PM0.1), and odors from indoor air. The central Easy-Touch control panel provides function modes such as automatic mode, level 1/2/3, turbo and night mode at one's fingertip. Additional features such as a timer function, child lock, filter status and customization of the automatic mode can be operated via the corresponding IDEAL Air PRO app<sup>1</sup>. On average, the 360° filter lasts for 12 months depending on the intensity of the usage. UL approved. Meets California ozone emissions limit. CARB certified.

<sup>1</sup>PRO models require a constant 2.4 GHz WiFi connection in order to use app.
